

Section-A

The Developers will be responsible for the following:

1.Scope of Work [What's Included]

	Deliverable	Details
1.	Customer App (Android + iOS + PWA)	44+ screens, 3-click booking, live tracking, quotation flow, wallet, PWA support, voice search, AI chat assistant
2.	Pro App (Android + iOS)	35+ screens, job management, quotation submission, earnings with full breakdown, daily payout, offline mode, GPS proof, before/after photos
3.	Super Admin Web Panel (Mobile Friendly)	49+ screens, quotation approval queue, full management, reports, settlement, GST reports, analytics, discipline management
4.	Backend REST API	Node.js + Express, MongoDB, fully documented API endpoints, RBAC for 7 user roles
5.	Database Design	MongoDB schema, indexed collections, multi-tenant ready, daily auto-backup
6.	Payment Integration	Razorpay — UPI, Cards, Wallets, COD, Refunds, Payouts
7.	Billing & Invoice System	3-layer invoice — Customer / Tax (GST) / Internal Settlement. PDF generation.
8.	GST Calculation Engine	CGST 9% + SGST 9% on platform fee. Admin-editable platform fee per service.
9.	Maps & Live Tracking	Google Maps SDK — real-time Pro tracking, navigation, geocoding, GPS proof
10.	Auto-Assign Engine	Radius-based, rating-priority, service-match, 3-Pro simultaneous notify, manual override
11.	Quotation Flow	Pro submission → Admin approval → Customer accept/decline → 50% advance → balance on completion
12.	Discipline System	Warning, penalty, block — automated rules + admin controls
13.	Notifications	FCM push + MSG91 SMS — event-driven for all key actions
14.	Auth System	Firebase Auth + JWT — OTP login, RBAC, session management
15.	Voice Search	Android native speech recognition — no third-party API, no cost
16.	AI Chat Assistant	Integrated progressively based on platform usage
17.	Refer & Earn	Referral code system with wallet credit rewards
18.	Wallet System	In-app wallet for customers and Pro earnings wallet
19.	Ratings & Reviews	OTP-gated review system. Rating-based auto-block for Pros below 2.5.
20.	Coupons & Promotions	Promo code engine, first-booking discount, admin-controlled
21.	Reports & Analytics	Revenue, bookings, Pro performance, service demand, GST — all Excel exportable
22.	Deployment	VPS production setup, SSL, domain config, Play Store + App Store submission

23.	Training Materials	15-min Pro training video, admin panel screen recording
24.	Post-Launch Support	6 months of bug fixes and monitoring after go-live
25.	Source Code Ownership	1.100% source code ownership transferred to client. GitHub private repo link access + ZIP provided 2.play store registration and accesses 3.Apple store Accesses.

In short over view,

- Website planning and structure
- Design mockups and visual layout
- Front-end and back-end development
- Mobile responsiveness
- Integration of third-party tools (if any)
- Testing and debugging
- Final deployment on Client's hosting/server,

The agreement presents the complete project proposal for client based on **section –B** of a **Software Requirements Specification [SRS] for this web platform technologies**— a full-featured, multi-sided home services marketplace platform connecting customers in city-level operations and scale across all over india.

Section-B

Software Requirements Specification (SRS) for the project.

1. Platform Architecture:

1.1.Applications:

Component	Platform	Tech Stack
Customer App + PWA	Android + iOS + Progressive Web App	React Native, Firebase Auth, Razorpay SDK, Google Maps
Pro (Service Provider) App	Android + iOS	React Native, Firebase Auth, Google Maps Navigation, Offline Mode
Admin Web Panel	Web — Responsive (Mobile Friendly)	Next.js, Node.js, Express, MongoDB
Backend API	Shared REST API	Node.js, Express, MongoDB, Firebase Auth, Redis (cache)

1.2.Tech Stack

Layer	Technology
Mobile Apps (Customer + Pro)	React Native
PWA (Customer Web)	React Native Web / Next.js
Admin Panel	Next.js
Backend / API	Node.js + Express
Database	MongoDB
Authentication	Firebase Auth + JWT
Push Notifications	Firebase Cloud Messaging (FCM)
Payments	Razorpay — UPI, Cards, Wallets, COD
Maps & Live Tracking	Google Maps SDK
OTP / SMS	MSG91 (DLT Compliant)
WhatsApp Alerts	Client Managed (BSP)
Hosting	Hostinger VPS (Ubuntu) — 2 vCPU, 8GB RAM, 100GB NVMe
Voice Search	Android Native Speech Recognition (Free)
AI Chat Assistant	AI-powered in-app assistant (integrated progressively)

1.3.Service Categories (Admin Managed — 50+ Services)

All service categories are fully dynamic and managed by the Admin. The following are the launch categories:

Category	Sample Services
Home & Maintenance	Electrical, Plumbing, Painting, Carpentry, Civil Work, AC, RO, Appliance Service, Home Cleaning, Pest Control, Water Service
Lifestyle & Personal	Laundry, Tailoring, Beautician, Salon, Computer/Laptop/Mobile Repair, Vehicle Repair, Cab, Auto, Ticket Booking, Parcel, Packers & Movers, Home Tuition
Health & Care	Medicine Delivery, Doctor Booking, Ambulance 24x7, Clinical Home Care, Nurse Service
Event & Function	Marriage/Anniversary Organiser, Catering, Photography, Decoration, Sound & Light, Security Guard, Equipment Rental
Business & Others	Rental Management, Real Estate, HR Consulting, College Admissions, Family Travel Packages

All categories, sub-categories, services, and pricing are created and managed entirely by the Admin. No services are hardcoded.

2. User Roles

This client web platform technologies operates with 7 distinct user roles across three tiers:

Tier 1 — Customer

1. Customer / User

- Books services via app or PWA, tracks Pro in real-time, pays digitally or cash, leaves ratings and reviews.
- Receives quotations for complex jobs, approves or declines with 50% advance payment option.

Tier 2 — Admin

2a. Super Admin (Only 1)

- Full platform control — Pro onboarding, service & pricing management, quotation approvals, commission settings, dispute resolution, reports, analytics, and all configurations.

2b. Sub Admin

- Supports Super Admin in day-to-day operations — manages bookings, support tickets, quotation queue, and vendor approvals as delegated.

2c. Area Admin

- Manages operations within an assigned geographic area. No external tool or third-party access at this level. Handles local Pro management and job oversight.

Tier 3 — Service Professionals

3a. Pro / Captain (Worker Level)

- Ground-level service professionals. Receives job notifications, accepts/rejects within 30 seconds, navigates to customer, completes job with OTP confirmation and before/after photo upload.

3b. Associate Partner

- Mid-level partner managing a small team of Pros. Handles moderate booking volumes and team coordination.

3c. Major Partner

- Same role structure as Associate Partner — differentiated by higher booking volumes, larger team size, and negotiated commission rates.

3.Core Booking & Job Flows

3.1.Standard Booking Flow (3-Click Target)

Step	Screen	Action
1	Service Select	Customer picks category → service. Search or browse grid.
2	Service Details + Slot	View price, inclusions, warranty. Pick date/time slot.
3	Address + Contact	Confirm location. Saved address or new pin.
4	Payment Summary	Platform fee shown. Coupon applied. UPI/Card/COD.
5	Booking Confirmed	Pro assigned. Live tracking enabled. ETA shown.

3.2.Quotation Flow (Complex Jobs — Runs Alongside Standard Flow)

Step	Who	Action
Step 1	Pro App	Pro visits site, assesses work, submits quotation with before-photos, material list, and labor cost.
Step 2	Admin Panel	Admin reviews quote, photos, material list. Approve / Edit & Approve / Reject within 15 minutes.
Step 3	Customer App	Customer receives quotation notification. Views details and photos. Accepts (pays 50% advance) or Declines.
Step 4	Pro App	Pro gets confirmation. Starts work. Uploads before/after photos. Completes with customer OTP.
Step 5	All	Balance payment collected. Invoice auto-generated. Pro wallet credited. CFC platform fee settled.

Quotation Rule	Detail
15-Min Approval	Admin must approve or reject within 15 minutes. Pro cannot wait longer.
₹5,000 Limit	Quotes above ₹5,000 require Admin phone confirmation before approval.
2 Photos Mandatory	Pro must upload minimum 2 before-photos. No photos = auto-reject.
Template Pricing	Admin sets fixed rates per service type. Quotes exceeding template trigger review.

3.3.Auto-Assign Logic

Rule	Detail
Radius	Admin sets assignment radius: 2KM / 5KM / 10KM — editable from Admin Panel.
Multi-Notify	3 nearest Pros notified simultaneously. First to accept gets the job.
Service Match	Plumber jobs go to Plumbers only. Electrician jobs to Electricians only.
Rating Priority	If 2 Pros are at equal distance, higher-rated Pro gets priority notification.
30-Second Timer	Pro has 30 seconds to accept. Countdown shown on screen. Auto-reject after timeout.

2-Minute Fallback	If no Pro accepts within 2 minutes, Admin Panel shows 'No Pro Available' alert.
Manual Override	Admin can manually assign any job to any available Pro at any time.
Auto Offline	Pro goes offline automatically when job is accepted. Goes online when job is completed.
GPS Proof	Pro must be within 100m of customer location to mark job as Complete.

3.4. Billing, Invoice & Settlement Flow

Layer	Who Sees It	Contents
Customer Invoice	Customer	Service name, Pro name, total amount paid, payment mode, CFC branding
Tax Invoice	Customer + Admin	Service fee, platform fee, CGST @9%, SGST @9%, total payable
Internal Settlement	Admin only	Customer paid total, Pro share, CFC platform fee, GST collected, net to each party

Settlement Rule	Detail
GST Basis	GST (18% = CGST 9% + SGST 9%) applied on Platform Fee only — not on Pro's professional fee.
Platform Fee	Admin editable per service category. Shown clearly to customer at checkout.
Pro Commission	15% CFC fee deducted from Pro earning. First 20 jobs — 0% commission (onboarding offer).
Pro Payout	Daily payout option available. Auto-transfer to Pro bank/UPI within 48 hours of job completion.
Pro Visibility	Pro sees full breakdown: Job amount, CFC fee deducted, GST note, net earning credited.
Invoice PDF	Auto-generated per booking. Downloadable by customer from app.

4. Complete Screen Inventory;

All screens listed are in scope. Each section ends with a flexibility note for client-requested additions during or after development.

4.1.Customer App (Android + iOS + PWA)

Onboarding & Authentication

#	Screen	Description
1	Splash Screen	CFC branding, blue+orange logo animation
2	Onboarding Walkthrough (3 slides)	One Step Solution, Verified Pros, 30-Day Warranty highlights
3	Login Screen	Mobile OTP login
4	Register Screen	Name, mobile, area registration
5	OTP Verification Screen	6-digit OTP, auto-read, resend timer
6	Forgot Password Screen	Reset via OTP

Home & Discovery

#	Screen	Description
7	Home Screen	Service grid, promo banners, Most Booked section, Why CFC, Join as Pro banner, testimonials, voice search
8	Search Screen	Text + Voice search, recent searches, trending services
9	Search Results Screen	Filtered list, sort by rating/price/distance
10	Category Listing Screen	All services under a category with pricing preview
11	Sub-category Listing Screen	Drill-down into service types
12	Service Detail Screen	Description, pricing, inclusions, warranty badge, ratings, FAQs
13	Pro Profile Screen	Bio, skill tags, rating, reviews, job count, verified badge

Booking Flow

#	Screen	Description
14	Select Service Options	Variant picker, add-ons, quantity
15	Select Date & Time Slot	Calendar + slot grid, AM/PM
16	Address Selection	Saved addresses, map pin, detect location
17	Add / Edit Address	Address form with landmark, type (Home/Work/Other)
18	Booking Summary	Full order summary, visit charge shown, platform fee shown
19	Apply Coupon / Promo Code	Coupon input, available offers, discount preview
20	Payment Screen	UPI/Card/Wallet/Cash. Razorpay integration. Total with GST.
21	Booking Confirmation	Success animation, booking ID, Pro ETA, Add to Calendar

Quotation Flow

#	Screen	Description
22	Quotation Received Screen	Notification + full quotation details, material list, before-photos
23	Quotation Accept Screen	Accept with 50% advance payment, Decline, Ask Question
24	Quotation Accepted Confirmation	Advance paid confirmation, balance due reminder, Pro start time

Tracking & Orders

#	Screen	Description
25	My Bookings Screen	Tabs: Upcoming / Ongoing / Completed / Cancelled
26	Booking Detail Screen	Full info, cancel/reschedule, contact Pro
27	Live Tracking Screen	Real-time map, Pro location pin, ETA countdown, job status timeline
28	Work In Progress Screen	Pro arrived status, before/after photos visible, call Pro
29	Service In-Progress Screen	OTP shown to Pro, job timer, status updates

Post-Service & Billing

#	Screen	Description
30	Rate & Review Screen	Star rating (shown only after OTP confirmation), written review, feedback chips
31	Customer Invoice Screen	Service summary, Pro name, total paid, payment mode
32	Tax Invoice Screen	Platform fee, CGST 9%, SGST 9%, total payable, PDF download

Account & Profile

#	Screen	Description
33	My Profile Screen	Avatar, name, phone, area, stats
34	Edit Profile Screen	Editable fields, photo upload
35	My Addresses Screen	Saved addresses, add/edit/delete
36	My Wallet Screen	Balance, add money, transaction history
37	Transaction History Screen	All payments, refunds, wallet credits
38	Refer & Earn Screen	Referral code, share link, rewards tracker
39	Notifications Screen	All alerts — bookings, offers, quotations, reminders
40	Help & Support Screen	FAQ accordion, raise ticket, call CFC helpline

41	Chat / Support Ticket Screen	In-app chat with CFC support team
42	AI Chat Assistant Screen	AI-powered assistant for service discovery and booking help
43	Settings Screen	Notifications, language, dark mode, logout
44	About / Terms / Privacy Screen	Legal pages, version info, app rating CTA

+ Additional customized screens based on client workflow and requirements

4.2.Pro App (Android + iOS)

Onboarding & Authentication

#	Screen	Description
1	Splash Screen	CFC Pro branding animation
2	Login Screen	Mobile OTP login
3	Register Screen	Name, service type, area, mobile number
4	OTP Verification Screen	Mobile OTP, auto-read
5	Profile Setup Screen	Photo, skills, experience, service area selection
6	Document Upload Screen	Aadhaar front/back, PAN, bank details, selfie
7	Bank / UPI Details Screen	Account number, IFSC, UPI ID for daily payouts
8	Terms & Conditions Screen	CFC Partner Code of Conduct acceptance
9	Approval Pending Screen	Waiting for Admin KYC verification

Home / Dashboard

#	Screen	Description
10	Home / Dashboard Screen	Today earning card, GO ONLINE big green button, new job feed, quick stats (completed, pending, rating, total earning), support section
11	GO ONLINE / OFFLINE Toggle	Full-screen status change. Online = accepting jobs. Auto-offline on accept. Auto-online on complete.
12	New Job Alert Screen	Full-screen popup. 30-second countdown timer. Service, customer, location, earning shown. [ACCEPT] big green, [DECLINE] grey small.
13	Job Accepted Screen	Status: On The Way. Customer name, address, [Navigate], [Call Customer], [Chat on WhatsApp], [I'm Here] button.
14	Navigation Screen	Google Maps turn-by-turn to customer location
15	Work In Progress Screen	[Upload Before Photos], [Add Extra Charges], [Complete Job] button. GPS proof active.
16	Add Quotation Screen	Work description, material list with costs, total quote, before-photo upload mandatory, [Submit for Approval]
17	Quotation Status Screen	Pending / Approved / Rejected by Admin. Rejection reason shown.

18	Complete Job Screen	Customer OTP input, before/after photos, final amount confirmation, [Mark Complete]
19	Job Completed Screen	Earning shown (gross + CFC fee deducted + net). Credited in 24 hours. Ask for rating.
20	My Jobs Screen	Tabs: Active / Upcoming / Completed / Cancelled
21	Job Detail Screen	Full job info, customer contact, service checklist, notes, photos

Earnings & Payouts

#	Screen	Description
22	Earnings Screen	Today / This Week / This Month. Full breakdown: gross, CFC fee, GST note, net earned. Chart view.
23	Transaction History Screen	Per-job payout records with full settlement breakdown
24	Withdrawal / Payout Screen	Daily payout trigger, minimum threshold, bank/UPI selection, status tracking
25	Pending Payments Screen	Jobs completed but payment pending. Status tracking.

Profile & Account

#	Screen	Description
26	My Profile Screen	Photo, name, rating badge, verified tag, CFC Pro ID, skill tags
27	Edit Profile Screen	Bio, skills, service area, experience, contact info
28	My Services Screen	Services offered, pricing per service, enable/disable toggle
29	Availability / Schedule Screen	Weekly grid, off-day blocking, holiday mode
30	Ratings & Reviews Screen	All customer reviews, average rating, response option
31	Notifications Screen	Job alerts, payout updates, platform announcements, warnings
32	Help & Support Screen	FAQ, raise ticket, call CFC helpline
33	Settings Screen	Notification preferences, language, account deactivation

Discipline & Compliance

#	Screen	Description
34	Warning / Penalty Screen	Shows active warnings, penalty deductions, reason, and escalation path
35	Partner Code of Conduct Screen	CFC 3 Golden Rules, penalty structure, sign-off confirmation

+ Additional customized screens based on client workflow and requirements.

4.3.Super Admin Web Panel (Mobile Friendly)

Auth & Dashboard

#	Screen	Description
1	Admin Login Screen	Email + password, 2FA support
2	Forgot Password Screen	Reset via secure email link
3	Main Dashboard	KPI cards: New Bookings, Pending Quotes, Active Jobs, Total Earning. Live job feed. Quick access to approval queue.

Quotation Management — Priority Screen

#	Screen	Description
4	Pending Quotations Screen	Live queue of all pending quotes. Job ID, Pro, Customer, Service, Amount. [Approve] [Edit & Approve] [Reject] per row.
5	Quotation Detail Screen	Full quote view: Pro notes, before-photos, material list, customer history. Approve/Edit/Reject with reason.

Bookings & Jobs

#	Screen	Description
6	All Bookings List	Master booking table, status filters, date range, export CSV
7	Booking Detail Screen	Full booking info, user+Pro info, timeline, status override
8	Booking Status Management	Force status updates, admin intervention on disputes
9	Live Jobs Map	Real-time map showing all active Pros and their job locations
10	Manual Job Assignment	Assign any job to any available Pro. Override auto-assign.

Pro Management

#	Screen	Description
11	All Pros List	Paginated table with online/offline status live. Search, filter by service/area/status.
12	Pro Detail Screen	Full profile, documents, earnings history, job stats, ratings, warnings
13	Pro Approval / Rejection Screen	Review KYC documents, Aadhaar/PAN, approve or reject with remarks
14	Pro Document Verification Screen	Document viewer, approve per document type
15	Block / Unblock Pro	Toggle access, reason required, audit trail
16	Pro Wallet Screen	Balance, job-wise credits, pending payouts, manual adjustment
17	Warning / Penalty Management	Issue warnings, apply penalties, track escalations
18	Payout Approval Screen	Pending payouts list, approve individual or batch, transfer status

Customer Management

#	Screen	Description
19	All Customers List	Search, filter, view all customers
20	Customer Detail Screen	Profile, booking history, wallet, complaints, no-show count
21	Block / Unblock Customer	Account moderation with reason logging

Service & Pricing Management

#	Screen	Description
22	Categories List	All service categories, drag-to-reorder, active/inactive toggle
23	Add / Edit Category	Name, icon, description, sort order, status
24	Sub-categories List	Nested categories management
25	Add / Edit Sub-category	Name, parent, icon, status
26	Services List	All services with pricing preview, search, filter
27	Add / Edit Service	Name, description, images, variants, inclusions, warranty info
28	Pricing Management	Base price, platform fee (editable), visit charge, night surcharge, city-wise override
29	Commission Settings	Platform commission % per category / per Pro / special rates for partners

Payments & Finance

#	Screen	Description
30	Transactions List	All payment records, filters by method/status/date
31	Revenue Dashboard	Today / Weekly / Monthly revenue. Platform fee collected. GST collected. Charts.
32	Settlement Screen	Per-booking internal settlement: Customer paid, Pro share, CFC fee, GST breakdown
33	Refund Management	Refund requests, approve/reject, 1-click Razorpay refund
34	GST Reports	Monthly GST collected — CGST, SGST, total. Export for filing.

Promotions & Banners

#	Screen	Description
35	Coupons / Promo Codes	Active coupons, usage stats, enable/disable
36	Add / Edit Coupon	Code, discount type, max uses, expiry, user restrictions, first-booking only option
37	Banners / Offers Management	Homepage banners, image upload, link to category/service, scheduling

Reports & Analytics

#	Screen	Description
38	Revenue Reports	Revenue by date/category/area, charts, Excel export
39	Bookings Reports	Volume, completion rate, cancellation analysis, peak hours
40	Pro Performance Reports	Job completion rates, ratings trends, top earners, no-show count
41	Service Demand Reports	Which services are booked most, which areas have highest demand
42	Customer Reports	New signups, retention, repeat booking rate, MAU/DAU

Support & Communications

#	Screen	Description
43	Support Tickets List	All open/closed tickets, priority filter, assign to agent
44	Ticket Detail / Reply	Thread view, internal notes, status update, resolve
45	Push Notification Manager	Compose and send push to all users / Pros / specific segments
46	Whats App / SMS Alert configuration	Configure automated alerts: booking confirm, job assigned, OTP, payout

Platform Settings

#	Screen	Description	
47	Platform Settings Screen	App configs, maintenance mode, feature flags, auto-assign radius, geofencing	
48	Admin Profile Screen	Admin name, role, password change, 2FA setup	
49	Sub Admin Management	Add/remove sub admins, assign permissions, area assignment for Area Admins	
Platform		Screens	Status
Customer App (Android + iOS + PWA)		44	In Scope
Pro App (Android + iOS)		35	In Scope
Super Admin Web Panel		49	In Scope
TOTAL		128	+ Custom screens as required

+ Additional customized screens based on client workflow and requirements

5.Third-Party Integrations & Infrastructure Costs

5.1.App Store Publishing

Platform	Cost	Type
Google Play Store	₹2,100 (~\$25)	One-time developer registration by client Gmail Account
Apple App store	₹ 8,400/year	Every year renewal

5.2. Google Maps Platform (Free Tier — Early Stage)

API / Service	Free Tier	Notes
Maps SDK (Mobile)	Unlimited	Free — no charges at any scale
Geocoding API	70,000 requests/month	Sufficient for early stage
Places Autocomplete	70,000 requests/month	Sufficient for early stage
Directions / Navigation	7,000 requests/month	Sufficient for MVP launch
Geolocation API	70,000 requests/month	Sufficient for early stage

All Google Maps APIs are within free tier limits at early user scale. Reviewed and upgraded based on traffic growth.

5.3. WhatsApp Business API

WhatsApp Business API setup, BSP account, and all message costs are managed directly by the client. Development team handles technical integration only.

5.4. SMS / OTP — MSG91

Provider	Cost per OTP	Max Monthly Budget	Notes
MSG91	~₹0.15/OTP	₹500/month	DLT-compliant, reliable Indian BSP

5.5. Payment Gateway — Razorpay

Provider	Transaction Fee	Setup Fee	AMC
Razorpay	2% + 18% GST per transaction	₹0	₹0
HDFC - Payment Gateway	Integrated by client support and registration cost	By client	-

UPI transactions have zero MDR by law. Gateway cost scales with GMV. COD option included at no extra integration cost.

5.6. Hosting & Infrastructure

Service	Specification	Cost	Notes
Hostinger VPS	2 vCPU, 8GB RAM, 100GB NVMe, 8TB Bandwidth	₹15,000 for 2 years	Backend, DB, Admin Panel, Nginx, SSL — all covered
Firebase Auth	Up to 50,000 MAUs	Free	OTP auth, JWT session management
Firebase FCM	Unlimited push notifications	Free	Push notifications for Customer + Pro apps

SSL Certificate	Let's Encrypt (auto-renewing)	Free	Configured on VPS
Domain (cfcservice.in)	Client owned	Client arranged	DNS setup handled by dev team

VPS handles all backend, database, and admin panel hosting for Year 1. Handles up to 25,000 MAUs comfortably. Upgrade path available post-growth.

5.7KYC / Document Verification

KYC and vendor document verification (Aadhaar eKYC, PAN verification) will be integrated at a later stage based on operational scale and requirements by the Developer.

SECTION-C

1. PROJECT COST SUMMARY

1.1. Total Project cost

The Developer agrees to design, develop, test and deliver the **Mobile APP** /website/web application according to the Client based specifications, features, and functionalities detailed in **Section –A, [Software Requirements Specification -SRS]**.The final product will be a functional, responsive website meeting the agreed-upon requirements and timeline.The total project cost is Rs 75,000/-[seventy five thousand + 18%GST],

Total Project cost is **Rs 88,500/-[Rupees eighty eight thousand and five hundred Rupees with 18% GST only]**

1.2 Monthly Recurring Infrastructure Costs (Year 1

Service	Monthly Cost	Notes
Hostinger VPS	₹0 (pre-paid 2 years)	Covered in one-time setup cost
Firebase Auth + FCM	₹0	Free tier — sufficient for Year 1
Google Maps API	~₹1,000	Early-stage user volume
MSG91 SMS / OTP	Max ₹500	Based on OTP volume
AWS SES Email	~₹500	Transactional emails
WhatsApp API	Client managed	Not billed to project
Razorpay Payment Gateway	2% per transaction	Variable — scales with GMV
TOTAL FIXED MONTHLY	~₹2,000/month	Excluding payment gateway %

1.3.One-Time Setup Costs

Item	Cost	Notes
Hostinger VPS (2 Years)	₹15,000	Full hosting infrastructure for 2 years
Google Play Store Account	₹2,100	One-time developer registration
Apple App Store Account	₹8,400/year [not included]	Annual renewal — client to arrange
SSL Certificate	₹0	Let's Encrypt — free auto-renewing
Domain (cfcservice.in)	Client owned	Client to arrange
KYC Integration	Later stage	Not in initial scope
TOTAL ONE-TIME	₹17,100 + Apple fee	Minimum to get started

Infrastructure costs are expected to remain at this level for Year 1. Based on user growth and traffic, hosting and API costs will be reviewed and scaled accordingly.

2.Project Timeline — 8 Weeks [or] 60 Days

All three applications are developed in parallel by dedicated sub-teams. The first 2 weeks are fully dedicated to UI/UX design and frontend mockups before any development begins. Client approval of designs is required before Week 3 begins.

Phase	Weeks	Focus	Key Deliverables
Phase 1 — UI/UX Design & Mockups	Week 1–2	Frontend mockups for all 3 apps	High-fidelity mockups for all 128 screens, CFC design system (Blue + Orange), component library, Figma link shared with client, design approval sign-off
Phase 2 — Backend + Auth + Core	Week 3–4	Backend API, auth, onboarding, service catalog	REST API, MongoDB schema, Firebase Auth, OTP login, RBAC for 7 roles, service catalog, admin panel auth, booking engine foundation, auto-assign logic
Phase 3 — Booking, Payment & Maps	Week 5–6	Full booking flow, quotation flow, payment, maps	Standard booking flow end-to-end, quotation flow (Pro → Admin → Customer), Razorpay integration (UPI/Card/COD), Google Maps live tracking, invoice + GST billing, Pro job management screens
Phase 4 — Admin Panel + Advanced	Week 7	Admin panel, Pro features, advanced flows	Full admin panel (49 screens), Pro earnings + daily payout, discipline system, commission engine, coupon management, push notifications (FCM), MSG91 SMS, reports & analytics, settlement screens
Phase 5 — QA, Testing & Launch	Week 8	Testing, fixes, store submission, go-live	End-to-end functional testing, payment sandbox to live, GPS proof testing, auto-assign testing, device compatibility, Play Store + App Store submission, VPS production deployment, go-live

All of the above Time Lines are beginning from the date of the agreement.

3. CONSIDERATION AND PAYMENT TERMS

3.1. Project Fees and Cost;

The Client agrees to pay the Developer a total project Fees and cost is Rs 75,000/-[seventy five thousand + 18%GST] The fees mentioned is exclusive of applicable taxes (such as GST). The Client will pay GST at prevailing rates upon receipt of a valid tax invoice.

3.2. Payment Milestone Summary

Payment Schedule: Payments shall be released in milestone summary -linked installments as detailed below:

Milestone	Target	Payment
Design approved — Figma link shared	First 2 Weeks- Advance of the project	25% on Advance Rs 18,750/- Only
Backend + Auth + Onboarding live on staging	End of Week 4	25% on Demo Rs 18,750/- Only
Full booking flow + Payment live on staging	End of Week 6	25% on Demo Rs 18,750/- Only
1.QA signed off + Both stores submitted + Go-live 2. 100% source code ownership transferred to the client. GitHub private repo link access + ZIP provided 3.play store registration and accesses 4.Apple store Accesses.	End of Week 8	Final 25% Rs 18,750/- Only + GST Rs 13,500/- [Total Project cost is Rs 88,500/- [Rupees eighty eight thousand and five hundred Rupees with 18% GST only]

Each milestone is demonstrated on client's phone before the next phase begins. The developer plans to submit the app to the Google Play Store and Apple App Store by the end of Week 8, but store review times depend entirely on Apple and Google.Each and every payment ,the Payment receipt given by the Developer-Digistrive Media.

4. INTELLECTUAL PROPERTY RIGHTS (IPR) and SOURCE CODE OWNERSHIP

4.1 Assignment of Rights:

Upon receipt of full and final payment, the Developer assigns all rights, titles, and interests, including the copyright of the custom source code, design elements, and layouts developed specifically for the Client under this project, to the Client.

4.2. SOURCE CODE OWNERSHIP

Digistrive Media acknowledges receipt of the final settlement payment from the Client. In consideration of this final payment, Digistrive Media hereby delivers and transfers full ownership of all project assets listed below to the Client.

4.3. Source Code & Intellectual Property Ownership

" Source Code " means [software code in human-readable form, including human-readable code compiled to create software or decompiled from software, but excluding interpreted code]

1. Ownership Status: 100% of the source code ownership, intellectual property rights, and copyright are hereby permanently transferred to the Client.
2. GitHub Repository Access: Full administrative control and ownership of the private GitHub repository have been transferred. *Repository Link:* [Insert GitHub Link]
3. Local Archive: A compressed offline archive containing the complete source code has been delivered. *Delivery Format:* ZIP File

4.4. Google Play Store Registration & Access

1. Account Status: Complete administrative access and credentials for the Google Play Console have been handed over to the Client.
2. Application Link: [Insert Play Store Link, if live]
3. Access Level provided: Owner / Account Administrator

4.5. Apple App Store Access

- 1.Account Status: Complete administrative access and credentials for the Apple Developer Account / App Store Connect have been handed over to the Client.
- 2.Application Link: [Insert App Store Link, if live]
3. Access Level provided: Account Holder / Admin

4.6. Multi-Language Architecture

All Customer screens must be multi-language ready - JSON based translation system - English, Tamil, Kannada, Hindi, Telugu. Language switch should not need app restart."

4.7. Figma Design File Owner

"Complete editable Figma source file with components, color styles, icons must be handed over"

4.8. API Performance & Security

"API should handle 10,000 concurrent users, MongoDB indexing for search, and daily auto-backup restoration test needed"

4. 9. App Store Rejection Handling

"Developer is responsible for handling App Store & Play Store rejections until app is live by client support, no extra cost"

4.10. Post-Launch Support and Waranty

- 1.Post-launch support gives you six [6]months of bug fixes and system monitoring after the CLIENT [CityFamilyCare Service] project goes live.
2. **Bug Fixes:** Quick repairs for any errors or broken features found after launch.
3. **System Monitoring:** Regular checks to make sure the app or website stays online and fast.
- 4.**Security Patches:** Basic updates to keep your system safe from new threats.
5. **Performance Checks:** Minor tweaks to improve how fast things load for users.

5. CONFIDENTIALITY

- 1.Each Party agrees to keep all technical, financial, and business information received from the other Party strictly confidential.
- 2.This obligation survives the termination of this Agreement for a period of 3years

6. LIMITATION OF LIABILITY

1. Neither Party shall be liable to the other for any indirect, incidental, special, or consequential damages, including loss of profits or data.
2. The Developer's total liability under this Agreement for any claim shall not exceed the total amount actually paid by the Client to the Developer

7. INDEMNIFICATION

1. **Developer Indemnity:** The Developer warrants that the code and design custom-built for the Client do not infringe upon third-party Intellectual Property rights.
2. **Client Indemnity:** The Client warrants that all materials, imagery, text, and data provided to the Developer do not violate any copyrights or local laws, and agrees to indemnify the Developer against any legal claims arising from such content.

8. Penalty for Incomplete Code Transfer

If the Developer refuses or fails to hand over the complete source code, repository access, or administrator credentials upon termination, the Developer shall be liable to pay a daily penalty as per the client damage value, until full transfer is verified. The Developer explicitly agrees that the Client shall retain absolute **Intellectual Property Rights** over all work paid for prior to termination.

9. CLIENT RESPONSIBILITIES

The Client agrees to:

1. Provide necessary content (e.g., text, images, branding assets)
2. Respond to feedback and approve milestones as early as possible.
3. Supply login credentials (**if needed**) for hosting or CMS access

10. Termination for Cause (Material Breach)

The Client may terminate this Agreement with immediate effect by giving written notice to the Developer if the Developer:

1. Fails to deliver deliverables within of a scheduled milestone deadline.
2. Commits a material breach of any terms of this Agreement (including confidentiality or data security breaches)

3.Files for bankruptcy, insolvency, or ceases business operations.

Governing Law and Jurisdiction: This Agreement shall be governed by and construed in accordance with the laws of Indian contract act-1972.Tamil Nadu, India, without regard to its conflict of law principles.

Any legal suit, action, or proceeding arising out of or related to this Agreement shall be instituted exclusively in the state courts located in Thiruchirapalli, Tamilnadu,india,and each party irrevocably submits to the exclusive jurisdiction of such courts.

Entire Agreement

This document constitutes the full agreement between the Parties and supersedes any previous discussions or understandings.

IN WITNESS WHEREOF, the Parties have executed this Website/mobile APP Development Platform Technologies[SRS] Agreement as of the date first written above.
